# BERLIN GARDENS

TAKE LIFE OUTDOORS™

SINCE 1988 | MADE IN THE USA

# The Berlin Gardens Difference.

## OUR PROCESS

Located in Ohio’s Amish country, Berlin Gardens pairs advanced machinery with traditional methods and skills handed down through generations.

## LEAD TIME

Our lead time is typically shorter than most of our competitors. Even during peak season, we deliver in a timely manner.

## SERVICE

Making the customer happy isn’t just something else we do — it’s the foundation upon which everything else is built.

## QUALITY

To us, quality means consistency. To the customer, this means holes line up for easy assembly, all components are hand-routed for exceptional smoothness and little details are not missed.

## DESIGN

From hidden fasteners to sleeker-lined chairs, we’re constantly improving our design.

# The best furniture uses the best materials.

## Poly Lumber

At Berlin Gardens, all of our furniture is built using only the highest-grade poly lumber. Made from high-density polyethylene (HDPE) plastic, this durable material is the secret behind manufacturing low-maintenance furniture designed to last decades.

***We use two types of poly in our furniture — both produced by leaders in the industry.***

### HDPE

High Density Polyethylene, HDPE, is recycled plastic lumber that has become a mainstay of the outdoor furniture industry. Its high strength-to-weight ratio and versatility make it an excellent choice for most poly furniture.

### MGP

Marine Grade Poly is a denser alternative to HDPE. This premium marine-grade poly (MGP) can be fabricated to create a more customized furniture design with a thinner profile.

### ALUMINUM

Aluminum is a lightweight, strong metal with excellent resistance to corrosion. Due to its resistance to rust and weathering, it can ensure long-lasting performance and minimal maintenance.

## Premium Hardware

### Chrome-Plated Fasteners

Unlike other poly furniture manufacturers, Berlin Gardens only uses chrome-plated stainless steel fasteners. These fasteners resist corrosion better than standard stainless steel — keeping your furniture free from unsightly rust stains.

### Aluminum Frames

We use strong, welded aluminum frames to provide long-lasting support under tabletops and thicker furniture components. While our furniture is designed to keep most aluminum supports out of sight, those that are visible are powder coated to maintain an attractive, durable finish.

## Go Green with Berlin Gardens

Your Berlin Gardens poly furniture offers more than just a great place to relax with friends and family. It also protects the environment. That’s because our poly lumber is manufactured using 95% recycled content.

See how our premium poly and aluminum stacks up against wood patio furniture:
