Your ultimate outdoor kitchen may be more affordable than you think.

Choosing an outdoor kitchen is a delicate balancing act. When comparing premium American-made brands at hefty prices with cheaper (and much lower quality) imports, your choice can often look like a compromise from every angle. At Artisan, we invite you to experience a new equilibrium where you can have it all.

Our years of experience building equipment for some of the finest restaurants in our state-of-the-art manufacturing facility has allowed us to redefine the concept of an investment piece: uncompromising excellence, remarkable features, and a price tag that defies expectations.

How do Artisan Professional Grills compare with the others?

Quality materials, refined construction, and meticulous craftsmanship make Artisan Professional Grills tough enough to withstand the rigors of living outdoors. With a keen eye for affordable innovations, we have crafted a grill that includes unique features not found in comparable outdoor appliance brands.

Artisan's Exclusive Heat Delivery System

Heavy-duty 304 18-8 stainless steel burners create evenly distributed extreme high heat to the cooking surface.

- 304 Series stainless steel "U" burners with dual rows of clean and efficient combusting double-lanced ports on three sides
- Best-in-class warranty
- Specify LP or Natural Gas when ordering

Made in the U.S.A

Made from commercial-grade 304 18-8 stainless steel with durable heli-arc and welded seams.

Precision Flame Control

Artisan's ergonomic grill knobs and brass valves are designed for precision control.

Refractive Locked-in-Place Ceramic 5-way Heat Distributing Briquettes

A special pyramid shape delivers intense even heat to the cooking surface. Radiant tray locks briquettes in place. Turn tray over and fire burners on high with lid closed to self-clean.

Sear Zone™ Infrared Burner

Optional interchangeable high-intensity infrared burner with a 100% combusting ceramic surface for intense even heat and authentic steakhouse results. Cooks 50% faster with virtually no flare-ups.

Sear Zone™ Burner Model: ART-ISB.

Grate for Sear Zone™ Model: ASZG.

Stainless Steel Switches

Stainless steel push-buttons for ignition and lighting are ergonomically integrated into the front cover panel.

Control Panel Lighting

Ambient blue LED front panel lighting illuminates knobs, creating a rich beam of light exactly where you need it. *(Professional Series only).*

Halogen Work Lights

Two integrated high-intensity halogen work lights on 32", 36", and 42" models. Light lens is easily removable without the use of tools. *(Professional Series only).*

Hood Lift Assist

Heavy-duty stainless steel spring assist makes for a smooth one-finger open and close of the grill hood.

Integrated Thermometer

Standard on every Artisan Grill, this convenient thermometer is built into the hood for accurate oven roasting temperatures.

Flush Rear Infrared Rotisserie Burner

32", 36", and 42" model grills come with a flush-mounted high-intensity rear ceramic infrared rotisserie burner. 50 pound capacity and 10" clearance. *(Professional Series only).*

Exclusive Heat Protected Wiring

Electrical wires are each encapsulated their full length with a 600° heat-resistant silicone sleeve, and all electric connectors are protected with a silicone boot made of the same heat-resistant silicone.

6

Stainless Steel Cooking Grates

Heavy-duty stainless steel cooking grates with a special non-stick electro-polished finish are positioned over briquette and "U" burner sections.

Exclusive Control Panel Air-Cooling Curtain

A special air-cooling plenum blasts a curtain of cool air that flows up between the front control panel and firebox, keeping the front panel and bullnose safe to the touch. This also assists in protecting the electronics.

Adjustable Food Warming and Grilling Rack

Two-position adjustable warming rack stores up and out of the way when rotissing. Ideal for above-grilling surface holding and cooking.

Heavy-duty 50-lb. Torque Rotisserie Motor

Connects to either end of the rotisserie spit turning foods smoothly and consistently. *(Optional on American Eagle Series).*

Artisan Professional Grills

by Alfresco

42

42" Professional Series

- Three 304 Series stainless steel main U-burners
- Powerful infrared rear rotisserie burner
- Up to 91,700 BTUs
- Total grilling area: 966 sq. in. (Calculation includes warming rack)
- 110V electronic ignition
- Bright halogen work lights
- 2-position warming rack
- Fold-down side shelves (Cart Model)
- Seamless door design with double magnets on cart doors
- Optional Sear Zone™ available
- Optional Sear Grate available
- Optional Grill Cover ART-42CV (Built-in), ART-42CVC (Cart)

Models: ARTP-42 (Built-in) and ARTP-42C (Cart Model).

Add this optional shelf
to any Artisan access door
for added storage.

Artisan Island Accessories

Trash Center and Chute

The most convenient way to deal with waste in your outdoor kitchen. Trash Center features full-length soft-close ball bearing slides and holds a standard 10-gallon trash bin (*not included*). Waste chute mounts in countertop above for easy access to trash bin below and features a sliding cutting board.

Single Model: ARTP-TC-15SC.

Double Model: ARTP-TC2-20SC.

Chute Model: ARTP-PWC.

18" Island LP Tank Drawer

Designed to fit standard LP Tanks, this 304 stainless steel tank drawer employs full-length "soft close" ball bearing slides.

Model: ARTP-18-LPTDR-SC.

Paper Towel Dispenser

Pivoting front door design conveniently holds and dispenses paper towels.

Model: ARTP-TH-17.

Specifications and Cutouts

Countertop outlet required for power to rotisserie units ART-ROT26, 30, 36, or 42

POWER: 115 VAC - GFCI recommended.

GRILLS AND INSULATED JACKETS

Undercounter outlet required for grill lights on ARTP grills.
GFCI recommended.

SIDE BURNER, TRASH CHUTE, AND ICE BIN

NOTE: H is height of item from the countertop surface.

S2 measurement is meant to align the chute with trash bin, and it is measured from the cabinet face, not from the bullnose.

DOORS, DRAWERS, TRASH CENTER AND REFRIGERATOR

Refrigerator H distance is measured from the floor level.

NOTE ①: All power supplies shown are 115 VAC - 1Ø - 3W - 60 Hz.

NOTE ②: Power requirements for ARTP-32, 36, AND 42 include light and rotisserie power together.
AAEP BBQ's use a 9-V DC ignition and do not have lights.

NOTE ③: All gas line requirements are as follows:

NG: 1/2" NPT WITH 4" W.C. (Hard-piped or flex connection)

LP: 3/8" ODF WITH 10" W.C. (For portable tanks)

LP: 1/2" NPT WITH 10" W.C. (Hard-piped or flex connection for whole house residential LP systems)

NOTE ④: Insulated jackets ARTIJ-26 / 32 / 36 AND 42 do not require power and/or gas lines by themselves.
Only the grills they are meant to insulate require them.

NOTE ⑤: ART-SB1 gas line is 3/8" OD, and it is connected to the existing grill with the supplied gas fittings.

NOTE ⑥: 115 VAC used for ignition and front panel accent lights only.
